CUMULATIVE SUBJECT INDEX

VOLUME 9

* *Indicates original article*

ABDOMEN
musculature:
—congenital deficiency of abdominal musculature with associated genitourinary abnormalities, a syndrome, 119
surgery:
—acute abdomen, 209
—acute surgical emergencies in the abdomen in pregnancy, 117
—aureomycin as an aid in abdominal surgery, 210
—diagnosis and management of intra-abdominal masses in infants and children, 208
—diagnosis of upper abdominal pain, 211

ACOUSTIC TUMORS
—comparison of results after intracapsular enucleation and total extirpation of acoustic tumors, 284

ADENOMATOSIS
polypoid:
—one stage resection of entire colon and rectum for ulcerative colitis and polypoid adenomatosis, 234

ADHESIONS
—adhesions resulting from removal of serosa from an area of bowel, failure of "oversewing" to lower incidence in the rat and the guinea pig, 34

ADRENAL GLANDS
—effect of adrenalectomy and of the adrenocorticotrophic and growth hormones on the synthesis of fatty acids, 31

AMBULATION
early:
—effect of postoperative bed rest and early ambulation on the rate of venous blood flow, 95

AMEBIASIS
—amebic lung abscess, 286

AMOSYT
—effect of amosyt on postoperative vomiting, 179

ANESTHESIA
—anesthesia for gastroesophageal surgery, 230
—anesthesia for the general practitioner, 173
—anesthesia in intestinal obstruction, 299
—common pitfalls in surgical anesthesia, 177
—evaluation of changing concepts in general anesthesia as they apply to office administration for oral surgery, 92
—frequency of aspiration of gastric contents by the lungs during anesthesia and surgery, 171
—general anesthesia and cardiac inhibition, 91
—impending death under anesthesia, 175
—massive surgical emphysema occurring under general anaesthesia, 277
—physiologic basis for the choice of anesthesia, 273
—poor risk patient, 180
—resumé of anesthetic experience in 1037 intrathoracic operations, 10
—some basic principles of geriatric anesthesia, 173
combined:
—combined anesthesia with sodium pentothal, curare and nitrous oxide, report of 625 cases, 9
—nitrous oxide-pethidine anesthesia with flaxedil relaxation, 171
—nitrous oxide-thiopentone-curare anesthesia, a preliminary report on an apparently satisfactory technique, 168
—syncurine (decamethonium-bromide), its use with pentothal-sodium and nitrous oxide-oxygen anesthesia in abdominal surgery, 278
intravenous:
—clinical impressions of a new intravenous barbiturate, surital sodium, a preliminary report, 176
local:
—pontocaine solutions for regional anesthesia other than spinal and epidural block, 275
—procaine with hyaluronidase as local anesthetic, 175
—use of pontocaine for regional anesthesia, an analysis of 300 cases, 172
—Wiszniewski's method of local anesthesia and blockade, 94
spinal:
—unilateral spinal block with a hyperbaric procaine-glucose solution, 275

ANEURYSMS
—aneurysm of the splenic artery, 136

ANGIOGRAPHY
—cerebral angiography, 285

ANORECTAL ABSCESS
—diagnosis and treatment of usual and unusual anorectal abscess, 241

ANTIBIOTICS—*See also Aureomycin; Penicillin; Streptomycin.*
—present status of antibiotic and chemotherapeutic agents in surgery, 13
—role of the sulfonamides and the antibiotics in the treatment of perforated peptic ulcers, 229

ANTICOAGULANTS—*See also Dicumarol; Heparin; Tromexan.*
—experiences with a new anticoagulant, 148

ANUS
abnormalities:

CUMULATIVE SUBJECT INDEX

intravenous:
—clinical impressions of a new intravenous barbiturate, surital sodium, a preliminary report, 176
local:
—pontocaine solutions for regional anesthesia other than spinal and epidural block, 275
—procaine with hyaluronidase as local anesthetic, 175
—use of pontocaine for regional anesthesia, an analysis of 300 cases, 172
—Wiszniewski's method of local anesthesia and blockade, 94
spinal:
—unilateral spinal block with a hyperbaric procaine-glucose solution, 275

ANEURYSMS
—aneurysm of the splenic artery, 136

ANGIOGRAPHY
—cerebral angiography, 285

ANORECTAL ABSCESS
—diagnosis and treatment of usual and unusual anorectal abscess, 241

ANTIBIOTICS—*See also Aureomycin; Penicillin; Streptomycin.*
—present status of antibiotic and chemotherapeutic agents in surgery, 13
—role of the sulfonamides and the antibiotics in the treatment of perforated peptic ulcers, 229

ANTICOAGULANTS—*See also Dicumarol; Heparin; Tromexan.*
—experiences with a new anticoagulant, 148

ANUS
abnormalities:

—imperforate anus and associated anomalies, report of a case, 136
fistula:
—post episiotomy fistula in ano, 137
AORTA
—surgical management of diseases of the aorta and other arteries, 73*
abdominal:
—arteriography of the abdominal aorta in vascular disorders, 252
thrombosis:
—vascular grafting in thromboses of the "aortic crossroads," 260
AORTOGRAPHY
—evaluation of the surgical kidney employing translumbar aortography, 245
abdominal:
—preliminary report on abdominal aortography in urology, 51
APPENDECTOMY
—dangers of the tie and drop method of appendectomy, 40
APPENDICITIS
—acute appendicitis, 236
—diagnostic aid of the x-rays in appendicitis, 128
—new method for the early diagnosis of acute appendicitis in the absence of localization, 40
complications:
—dangerous masking effect of penicillin in acute perforative appendicitis with secondary peritonitis, 127
APPENDIX
—function of the appendix, a theory, 127
ARTERIECTOMY
—arteriectomy for arterial obstruction in the extremities, 258
ARTERIES—*See also under names of individual arteries.*
—surgical management of diseases of the aorta and other arteries, 73*
ARTERIOGRAPHY
—arteriography of the abdominal aorta in vascular disorders, 252
ARTHRITIS
—orthopedic management of chronic arthritis, knee and foot, 154
rheumatoid:
—chronic adhesive pericarditis due to the rheumatic state, associated with liver damage, serous effusions, and pigmentation, 191
ARTHRODESIS
—technic and indications for radio-carpometacarpal arthrodesis by means of a graft, 56
ASCITES
—studies in ascitic fluid in patients with hepatic cirrhosis, heart failure and cancer, 216
ASTHMA
—spontaneous pneumothorax complicating bronchial asthma due to wood dust, 192
ATRIAL APPENDAGES
—resection of the auricular appendages, 193
ATROPINE
—atropine in the treatment of closed head injury, 100
AUREOMYCIN
—aureomycin as an aid in abdominal surgery, 210
—excretion and concentration of aureomycin in the abnormal human biliary tract, gall bladder, hepatic bile, 45
BACK PAIN
—flexion treatment of low back pain, 284
—low back pain, neurologic aspects, 189
—tumors of the spinal cord without neurologic manifestations producing low back and sciatic pain, 98
BANTHINE
—treatment of duodenal ulcers with banthine, a study of forty cases, 217
BANTI'S SYNDROME
—preoperative portagraphy for Banti's syndrome, 257
BARBITURATES—*See Surital Sodium.*
BILE DUCTS
calculi:
—nonoperative treatment of retained postoperative common duct stones, 237
cancer:
—cancer of the gall bladder and extrahepatic bile ducts, 238
—carcinoma of the common bile duct, pancreatoduodenectomy with Roux-Y anastomosis, 302
intrahepatic:
—radiology of the intrahepatic biliary tract, 131
strictures:
—study of biliary strictures and their surgical treatment in 184 patients, 42
BIOPSY
—early diagnosis of cancer, the biopsy, 96
—value of needle biopsy in tumors of the breast, 114
BLADDER
—exstrophy of the bladder, 146
cancer:
—carcinoma of the bladder, clinical, therapeutic and pathological aspects of 135 cases, 242
—total cystectomy for cancer of the urinary bladder, 48
tumors:
—primary tumors of the bladder, a survey of 275 cases, 141
—results of treatment of bladder papilloma by diathermy, 52
—spontaneous disappearance or retrogression of bladder neoplasms, review of the literature and report of three cases, 144
BLOOD
chemistry:
—colloidal and protein picture in burns, 156
—elevated values for serum amylase and

lipase following administration of opiates, a preliminary report, 132
—thermal coagulability of serum proteins and the diagnosis of malignant diseases, 95

BLOOD PRESSURE
high—See Hypertension.

BLOOD TRANSFUSION
—citrate tolerance, 95

BLOOD VESSELS
—vascular injuries, 253

BONE BANKS
—establishment of a bone bank in a general hospital, 316

BONE WAX
hemostatic:
—new absorbable hemostatic bone wax, 17

BOOK REVIEWS
—Bone and joint diseases, 68
—British surgical practice (Volume 7), 67
—Cancer of the colon and rectum (2nd edition), 64
—Esophagus and pharynx in action, 64
—Krebsproblem (Das), 70
—Newer concepts of inflammation, 61
—Operative surgery of the head, brain, spinal column and back, 159
—Pedicle flaps in plastic surgery of the head and neck, 71
—Plasma clot suture of peripheral nerves and nerve roots, 62
—Principles and practice of surgery, 66
—Scientific medical and technical books, 69
—Splenectomy (indications for and results of), 61
—Surgical treatment of facial injuries, 66
—Thoracic surgery, 63
—Trephine technique of bone marrow infusions and tissue biopsies, 64
—Your prostate gland, 60

BRAIN
—cerebral angiography, 285
aneurysms:
—electroencephalogram in intracranial aneurysms, 188
injuries:
—subdural hematoma, complications and surgical treatment, report of 51 cases, 187
thrombosis:
—stellate ganglion block in cerebral thrombosis and embolism, a preliminary report, 260

BREAST
cancer:
—carcinoma of the female breast, case report with discussion, 281
—carcinoma mammae latens, 116
—management of breast cancer, 206
—primary carcinoma of the breast and uterus, 53
—radiation therapy as an adjunct to surgery in cancer of the breast, 113
—statistical study of treatment of cancer of the breast, 115
—technic of radical mastectomy, 290
—treatment of far advanced carcinoma of the breast, present status of testosterone therapy, 29
radiation therapy:
—system of dosage estimation for the tangential irradiation of the breast without bolus, 26
surgery—See also Mastectomy.
—surgical significance of sweat gland lesions of the breast, 115
tumors:
—benign tumefactions of the breast, 113
—value of needle biopsy in tumors of the breast, 114

BRONCHOGRAPHY
—bronchography in pulmonary tuberculosis, 112

BRONCHOSCOPE
—modification of the Jackson bronchoscope, 26

BURNS—*See also Radiation Burns.*
—colloidal and protein picture in burns, 156

CANCER
—early diagnosis of cancer, the biopsy, 96
—errors in diagnosis and management of cancer, 14
—primary carcinoma of the breast and uterus, 53
—symposium of cancer—principles of the surgical treatment of cancer, 186
—therapeutic uses of radioactive isotopes in the Royal Cancer Hospital, 16

CARDIA
—effects of vagotomy and phrenicotomy on the cardia, 292

CAROTID ARTERY
internal:
—complications of ligation of the internal carotid artery, 256

CATHETERS
—new clamp for use with a bag catheter, 145

CEREBRAL PALSY
—surgery of the extremities in cerebral spastic disorders, 101

CHEMOTHERAPY
—present status of antibiotic and chemotherapeutic agents in surgery, 13

CHILDREN
—diagnosis and management of intra-abdominal masses in infants and children, 208
—intussusception in children under two years of age, 232
—surgical lesions of the chest in children, 193
tumors:
—analysis of all tumors at Children's Hospital over a ten-year period, 184

CHIN
—plastic surgery of the nose and chin, 20

CHOLANGIOGRAPHY
—technic, indications and value of postoperative cholangiography, 43

CHOLECYSTECTOMY
—simple safe method of cholecystectomy, 302

CHOLECYSTITIS
—studies in acute cholecystitis, pathological process in relation to the clinical management of the disease, the fallacy of the critical period, 41
CLEFT LIP
—rhinoplastic approach to the cleft lip problem, 21
COLITIS
ulcerative:
—medical and surgical treatment of chronic ulcerative colitis, 38
—one stage resection of entire colon and rectum for ulcerative colitis and polypoid adenomatosis, 234
—vagotomy for idiopathic ulcerative colitis and regional enteritis, 231
COLON
—rupture of the colon due to compressed air with particular reference to the character of the lesion, 236
abnormalities:
—duplication of the entire colon and terminal part of the ileum associated with parasitic twin, 124
cancer:
—multiple malignancies of the colon, report of six cases, 126
—primary linitis plastica carcinoma of the colon, 293
injuries:
—traumatic submucosal hematoma of the midportion of the ascending colon, report of case, 124
surgery:
—one stage resection of entire colon and rectum for ulcerative colitis and polypoid adenomatosis, 234
CRANIOPLASTY
—stainless steel cranioplasty, 185
CUL-DE-SAC
—culdocentesis, 146
CURARE—*See Anesthesia, combined.*
CYSTECTOMY
—total cystectomy for cancer of the urinary bladder, 48
CYSTOGRAPHY
—precipitation cystography, 142
DENTAL SURGERY
—evaluation of changing concepts in general anesthesia as they apply to office administration for oral surgery, 92
DIATHERMY
—results of treatment of bladder papilloma by diathermy, 52
DICUMAROL
—dicumarol therapy, 149
DUCTUS ARTERIOSUS
—patent ductus arteriosus, observations from 412 surgically treated cases, 251
DUODENOSTOMY
—duodenostomy, a method of managing the duodenal stump in certain cases of partial gastrectomy, 121
DUODENUM
—arteriomesenteric duodenal compression, report of a case occurring in an adult, 235
surgery:
—review of surgery of the stomach and duodenum for 1950, 227
ulcer—See also Gastroduodenal Ulcer.
—chronic peptic duodenal ulcer with cancerous transformation, 120
—combined procedure of partial gastrectomy and intradiaphragmatic vagus resection, 223
—treatment of duodenal ulcers with banthine, a study of forty cases, 217
—vagotomy and duodenal ulcer, 35
—vagotomy and pyloroplasty, the physiologic treatment for duodenal ulcer, 225
—vagotomy in the treatment of duodenal ulcer, results in 350 consecutive cases, 220
EARLY RISING—*See Ambulation, early.*
ELECTROENCEPHALOGRAPHY
—electroencephalogram in intracranial aneurysms, 188
EMPHYSEMA
—massive surgical emphysema occurring under general anaesthesia, 277
—mediastinal emphysema due to therapeutic pneumoperitoneum, 206
ENTERITIS
regional:
—vagotomy for idiopathic ulcerative colitis and regional enteritis, 231
EPILEPSY
—surgical treatment of convulsive disorders, 100
EPINEPHRINE
—comparative effects of small intravenous doses of epinephrine upon arterial pressure and pulse rate in normotensive subjects and in hypertensive patients before and after thoracolumbar sympathectomy, 20
EPISIOTOMY
—postepisiotomy fistula in ano, 137
ESOPHAGUS
cancer:
—carcinoma of the esophagus, 196
—carcinoma of the upper thoracic and cervical portion of the esophagus treated by one-stage esophagectomy and cervical esophogastrostomy, report of two cases, 22
—palliative gastrostomy for inoperable carcinoma of the oesophagus, 288
—total gastrectomy and resection of the lower part of the thoracic esophagus because of cancer, 130
diverticula:
—surgical management of esophageal diverticula, 191
perforation:
—perforation of the esophagus, 23
surgery:
—anesthesia for gastroesophageal surgery, 230
tumors:
—rhabdomyosarcoma of the esophagus, 106

FALLOPIAN TUBE
cancer:
—carcinoma of the endometrium and fallopian tube, 148
FASCIOTOMY
—fasciotomy in treatment of gravitational leg ulcers, 149
FATTY ACIDS
—effect of adrenalectomy and of the adrenocorticotrophic and growth hormones on the synthesis of fatty acids, 31
FEMUR
fractures:
—impacted fractures of the neck of the femur, 261
—lag screw fixation of femoral neck fractures, 155
FINGERS
injuries:
—hyperextension injuries to the finger joints, 154
FLAXEDIL—*See Anesthesia, combined.*
FLUID THERAPY
—parenteral fluids in the surgical patient, 178
FOOT
cancer:
—melanocarcinoma of the plantar surface of the foot, 183
FOREIGN BODIES
—clinical significance of foreign body granulomas, a review, 158
FRACTURES—*See also Legs; Wrist; and under names of individual bones.*
—sliding internal fixation in fractures of the long bones allowing end-to-end impaction, 260
FROSTBITE
—experimental frostbite, an inquiry into the effect of sympathetic block using tetra-ethyl ammonium chloride in the acute stage, 258
—frostbite, an unsolved problem, 257
FUNNEL CHEST—*See Thorax, abnormalities.*
GALLBLADDER—*See also Cholecystectomy; Cholecystitis.*
—congenital absence of the gall bladder, a possible hereditary defect, 44
—excretion and concentration of aureomycin in the abnormal human biliary tract, gall bladder, 45
cancer:
—carcinoma of the gall bladder and extrahepatic bile ducts, 238
GAS GANGRENE
—case report—gas gangrene, 159
GASTRECTOMY
—combined procedure of partial gastrectomy and intradiaphragmatic vagus resection, 223
—duodenostomy, a method of managing the duodenal stump in certain cases of partial gastrectomy, 121
—evaluation of subtotal gastrectomy for gastric and duodenal lesions, 123
—partial gastrectomy in treatment of bleeding peptic ulcer, 216
—prevention of some postgastrectomy difficulties by a new gastrectomy technic, 224
—subtotal gastric resection in the treatment of benign gastric and duodenal ulcers, 297
—total gastrectomy, 229
—total gastrectomy and resection of the lower part of the thoracic esophagus because of cancer, 130
GASTRODUODENAL ULCER
—carcinoma developing in jejunal ulceration following gastroenterostomy for peptic ulcer, a case report, 293
—parallel survey of gastric and duodenal ulcers, 298
—present status of the surgical treatment of peptic ulcer, 228
—subtotal gastric resection in the treatment of benign gastric and duodenal ulcers, 297
—vagotomy as a treatment for marginal ulcer, 122
bleeding:
—partial gastrectomy in treatment of bleeding peptic ulcer, 216
—surgical treatment of bleeding peptic ulcers, 221
perforation:
—review of some unusual forms of perforation complicating benign peptic ulcer, 222
—role of the sulfonamides and the antibiotics in the treatment of perforated peptic ulcers, 229
GASTROENTEROSTOMY
—carcinoma developing in jejunal ulceration following gastroenterostomy for peptic ulcer, a case report, 293
GASTROINTESTINAL TRACT
—gastrointestinal function following radical pancreaticoduodenectomy, 300
hemorrhage:
—treatment for hemorrhages of the digestive tract of spleno-portal origin, 255
GENITOURINARY TRACT
abnormalities:
—congenital deficiency of abdominal musculature with associated genitourinary abnormalities, a syndrome, 119
GRANULOMA INGUINALE
—granuloma inguinale in the African Negro, 249
GRANULOMAS
—clinical significance of foreign body granulomas, a review, 158
HAND
—a case of painful swelling of the hand, 315
injuries:
—irradiation injuries of the hand, 157
HEAD—*See also Brain.*
injuries:

—atropine in the treatment of closed head injury, 100
—surgical treatment of extracerebral hematoma in acute craniocerebral injury, 186
surgery—See Cranioplasty.
HEART
arrest:
—cardiac arrest, 94
—new approach to the heart in cardiac arrest, 272
—vagus nerve in cardiac arrest, the effect of hypercapnia, hypoxia and asphyxia on reflex inhibition of the heart, 9
foreign bodies:
—removal of a migratory intravascular foreign body from the heart, report of a case, 111
inhibition:
—general anesthesia and cardiac inhibition, 94
surgery:
—recent advances in surgical treatment of heart lesions, 107
HEART DISEASE
congenital:
—surgical relief of congenital cyanotic heart disease, late results in 72 cases, 111
HEMATOMA
—surgical treatment of extracerebral hematoma in acute craniocerebral injuries, 186
subdural:
—subdural hematoma, complications and surgical treatment, report of 51 cases, 187
HEMOPERITONEUM
—traumatic hemoperitoneum, 216
HEMOPNEUMOTHORAX
—spontaneous hemopneumothorax, treatment by early thoracentesis, 289
HEMOSTASIS
—new absorbable hemostatic bone wax, 17
HEPARIN
—study of a test of resistance to heparin in surgical patients, 11
HERNIA
—hernia repair with cotton, preliminary study of 337 cases, 291
diaphragmatic:
—contribution to the clinical study and surgical treatment of the right diaphragmatic hernia with hepatic contents, 212
—pneumoperitoneum in the differential diagnosis of diaphragmatic hernia, 213
femoral:
—inversion operation in femoral hernia, 291
hiatus:
—esophageal hiatus hernia, 214
—surgical procedures in hiatus hernia, 288
intra-abdominal:
—roentgen diagnosis of intra-abdominal hernia, 214
HICCUP
—prolonged peripheral nerve block by means of indwelling plastic catheter, treatment of hiccup, 274
HIRSCHSPRUNG'S DISEASE
—Hirschsprung's disease associated with anal stenosis and subhepatic cecum, 47
HYALURONIDASE
—procaine with hyaluronidase as local anesthetic, 175
HYDRONEPHROSIS
—giant hydronephrosis, 140
HYPERPARATHYROIDISM
—primary hyperparathyroidism, 105
HYPERTENSION
surgical treatment:
—comparative effects of small intravenous doses of epinephrine upon arterial pressure and pulse rate in normotensive subjects and in hypertensive patients before and after thoracolumbar sympathectomy, 20
—comparative effects of small intravenous doses of L-nor-epinephrine upon arterial pressure and pulse rate in normotensive subjects and hypertensive patients before and after thoracolumbar sympathectomy, 19
—surgical treatment of arterial hypertension in 108 cases, 18
—surgical treatment of so-called "essential" hypertension, 101
HYSTERECTOMY
—total hysterectomy, 309
ILEUM
abnormalities:
—duplication of the entire colon and terminal part of the ileum associated with parasitic twin, 124
—operative recovery of multiple atresia at ileo-cecal area, 125
ILIAC ARTERY
—damage to the external iliac artery, report of a case, 311
IMMOBILIZATION
—effect of immobilization in various positions upon the weight and strength of skeletal muscles, 319
INCONTINENCE
urinary—See Urinary Incontinence.
INFANTS
—diagnosis and management of intra-abdominal masses in infants and children, 208
—infantile pyloric stenosis, 120
—intestinal obstruction in the infant and newborn, 37, 300
INJURIES
—industrial injuries, 318
INOSITOL
—antithrombin effect of inositol, 253
INTESTINES—*See also Colon; Ileum.*
anastomosis:
—intestinal anastomosis, evaluation of the single layer technic, 117

obstruction:
—anesthesia in intestinal obstruction, 299
—incomplete obstruction of the small intestine, 126
—intestinal obstruction, 294
—intestinal obstruction in the infant and newborn, 37, 300
surgery:
—adhesions resulting from removal of serosa from an area of bowel, failure of "oversewing" to lower incidence in the rat and the guinea pig, 34

INTUSSUSCEPTION
—intussusception in children under two years of age, 232

JAUNDICE
—flocculation tests in the differential diagnosis of jaundice, 301
—pathology of jaundice, 128

JEJUNUM
cancer:
—carcinoma developing in jejunal ulceration following gastroenterostomy for peptic ulcer, a case report, 293
—familial incidence of primary carcinoma of the jejunum, 299

JOINTS
finger—See Fingers.
surgery—See Arthrodesis.

KIDNEYS
calculi:
—renal calculi and differential diagnosis, 245
—renal lithiasis: prevention of recurrence, 250
function:
—measurement of renal osmotic work in man, a preliminary report, 181
innervation:
—renal nerves, 139
pelvis:
—hydromechanics of different types of kidney pelvis, 142, 304
surgery:
—evaluation of the surgical kidney employing translumbar aortography, 245
—surgery for the conservation of renal parenchyma, 50
—technique for employing suction to hold and make traction on the kidney and other organs during operation, 51
tumors:
—kidney tumors, types, diagnosis, treatment, 138

KNEE
—rapid rehabilitation of disabilities of the knee, 316

LEGS
fractures:
—prophylaxis of thrombosis with Tromexan in closed leg fractures, 57
ulcers:
—fasciotomy in treatment of gravitational leg ulcers, 149
—gravitational leg ulcers and allied states, 151

LINITIS PLASTICA
—primary linitis plastica carcinoma of the cardia, 293

LIP
cancer:
—treatment of cancer of the lip, 190

LIVER
—excretion and concentration of aureomycin in the abnormal human biliary tract, hepatic bile, 45
—liver and spleen visualization by a simple roentgen contrast method, 240
diseases:
—study of fecal excretion of fat and nitrogen and external pancreatic function in cases of primary parenchymatous hepatic disease, 129
function:
—flocculation tests in the differential diagnosis of jaundice, 301

L-NOR-EPINEPHRINE
—comparative effects of small intravenous doses of L-nor-epinephrine upon arterial pressure and pulse rate in normotensive subjects and in hypertensive patients before and after thoracolumbar sympathectomy, 19

LOBOTOMY
—"chemical lobotomy" for intractable pain, 187

LUNGS
—arteriovenous angiomatosis of the lung with hypoxaemia, 109
—frequency of aspiration of gastric contents by the lungs during anesthesia and surgery, 171
—intralobar sequestration of lung associated with an abnormal pulmonary artery, 287
abscess:
—amebic lung abscess, 286
cancer:
—carcinoma of the lung, 194
surgery:
—experiences with lung resection in pulmonary tuberculosis, 205
—lobectomy and pneumonectomy in pulmonary tuberculosis, 21
tumors:
—spontaneous pneumothorax from secondary sarcoma of the lung, 202

LYMPHANGITIS
—lymphedema of the lower extremities, 254

LYMPHOGRANULOMA VENEREUM
—treatment of advanced strictures of the rectum due to lymphogranuloma venereum, 233

MALIGNANT DISEASE—*See also Cancer.*
—thermal coagulability of serum proteins and the diagnosis of malignant disease, 95

MASTECTOMY
—incidence of swollen arms after radical mastectomy and suggestions for prevention, 27
—technic of radical mastectomy, 290

MECKEL'S DIVERTICULUM
—surgical aspects of Meckel's diverticulum, report of 64 operative and 11 autopsy cases, 39, 294
MEDIASTINOTOMY
—mediastinotomy, some technical observations, 199
MICROWAVE RADIATION
—effect of microwave radiation on the peripheral pulse volume, digital skin temperature and digital blood flow in man, 314
MITRAL VALVE
stenosis:
—surgical treatment of mitral stenosis, 25
MOUTH
cancer:
—surgical treatment of intra-oral cancer, 279
surgery—See Dental Surgery.
MUSCLES
—diseases and disorders of muscle function, 318
—effect of immobilization in various positions upon the weight and strength of skeletal muscle, 319
MYELOGRAPHY
—pantopaque myelography in ruptured intervertebral disk, correlation with operative findings, 285
NECK
—lateral cysts and fistulas of the neck, 102
NERVE BLOCK
—prolonged peripheral nerve block by means of indwelling plastic catheter, treatment of hiccup, 274
NEUROSURGERY
—impressions from European neurosurgical clinics, 161*
—intractable pain as a surgical problem, some conclusions on the relief of pain by operations upon the central nervous system, 99
NEVUS
—treatment of haemangiomatous naevi with thorium X, 183
NEWBORN—*See Infants.*
NOSE
—plastic surgery of the nose and chin, 20
OLD AGE
—common problems in geriatric surgery, 177
—mortality in geriatric surgery, 12
—some basic principles of geriatric anesthesia, 173
OMENTUM
—primary torsion of the omentum, 216
—torsion of the great omentum, 215
OPIATES
—elevated values for serum amylase and lipase following the administration of opiates, a preliminary report, 132
OS CALCIS
fractures:
—comminuted fractures of the os calcis, choice of treatment, 156
PAIN
—"chemical lobotomy" for intractable pain, 187
—intractable pain as a surgical problem, some conclusions on the relief of pain by operations upon the central nervous system, 99
PANCREAS
—pancreatogenous steatorrhoea, 133
cancer:
—cancer of the pancreas, a clinical and pathological study, 132
secretions:
—study of fecal excretion of fat and nitrogen and external pancreatic function in cases of primary parenchymatous hepatic disease, 129
PANCREATICODUODENECTOMY
—carcinoma of the common bile duct, pancreaticoduodenectomy with Rous-Y anastomosis, 302
—gastrointestinal function following radical pancreaticoduodenectomy, 300
PANCREATITIS
—acute pancreatitis, 131
PARENTERAL ALIMENTATION
—prolongation of life by employment of parenteral administration, 180
PENICILLIN
—dangerous masking effect of penicillin in acute perforative appendicitis with secondary peritonitis, 127
PENIS
cancer:
—management of cancer of the penis, 248
PEPTIC ULCER—*See Gastroduodenal Ulcer.*
PERICARDITIS
—chronic adhesive pericarditis due to the rheumatic state, associated with liver damage, serous effusions, and pigmentation, 191
PERITONEOSCOPY
—peritoneoscopy, 119
PERITONITIS
—dangerous masking effect of penicillin in acute perforative appendicitis with secondary peritonitis, 127
PHLEBITIS
—treatment of the post-phlebitic leg and application of venous pressure measurement, 150
PHRENICOTOMY
—effects of vagotomy and phrenicotomy on the cardia, 292
PHYSICAL MEDICINE
—place of physical medicine, rehabilitation and occupational therapy in a diagnostic clinic, 261
PITUITARY GLAND
hormones:
—effect of adrenalectomy and of the adrenocorticotrophic and growth hormones on the synthesis of fatty acids, 31

PNEUMOPERITONEUM
—pneumoperitoneum in the differential diagnosis of diaphragmatic hernia, 213
—streptomycin and artificial pneumoperitoneum in the treatment of pulmonary tuberculosis, 192
PNEUMOTHORAX
—spontaneous pneumothorax complicating bronchial asthma due to wood dust, 192
—spontaneous pneumothorax from secondary sarcoma of the lung, 202
PONTOCAINE
—pontocaine solutions for regional anesthesia other than spinal and epidural block, 275
—use of pontocaine for regional anesthesia, an analysis of 3000 cases, 172
PORTAL VEIN
—sudden and complete occlusion of the portal vein in the Macaca mulatta monkey, 46
POSTOPERATIVE CARE
—effect of postoperative bed rest and early ambulation on the rate of venous blood flow, 95
—parenteral fluids in the surgical patient, 178
—studies in vitamin C and protein metabolism in surgical patients on a routine hospital diet, 12
PREGNANCY
—acute surgical emergencies in the abdomen in pregnancy, 117
—obstetrical approach to abdominal war wounds in late pregnancy, 58
PROCAINE
—a clinical study of new derivatives from procaine, 174
—procaine with hyaluronidase as local anesthetic, 175
—unilateral spinal block with a hyperbaric procaine-glucose solution, 275
PROSTATE
—squamous metaplasia of the prostate gland, 141
cancer:
—phosphatase studies on a case of prostatic carcinoma with metastases, 246
—prostatic smear in cancer diagnosis, 243
PROSTATECTOMY
—immediate prostatectomy by Millin's method for acute retention of urine, 52
—retropubic prostatectomy, 303
—retropubic prostatectomy, a comparison between its results and those of previous methods over a three year period, 308
PROTEIN METABOLISM
—studies in vitamin C and protein metabolism in surgical patients on a routine hospital diet, 12
PRURITIS ANI
—successful ointment therapy for pruritus ani, 137
PURPURA
thrombocytopenic:
—thrombocytopenic purpura, review of fifty-three cases, 134
PYLOROPLASTY
—vagotomy and pyloroplasty, the physiologic treatment for duodenal ulcer, 225
PYLORUS
stenosis:
—infantile pyloric stenosis, 120
RADIATION BURNS
—fibrosarcoma developing in heavily irradiated skin, 157
—irradiation injuries of the hand, 157
RADIATION THERAPY
—radiation therapy as an adjunct to surgery in cancer of the breast, 114
RADIOACTIVE ISOTOPES
—therapeutic uses of radioactive isotopes in the Royal Cancer Hospital, 16
RADIOGRAPHY
—radiology of the intrahepatic biliary tract, 131
RADIUM
—radium and radon therapy, 280
—report on radium therapy for 1950, 281
RADON
—radium and radon therapy, 280
RECTUM
cancer:
—squamous cell carcinoma of the rectum, 235
strictures:
—treatment of advanced strictures of the rectum due to lymphogranuloma venereum, 233
surgery:
—one stage resection of entire colon and rectum for ulcerative colitis and polypoid adenomatosis, 234
RHINOPHYMA
—surgical correction of rhinophyma, 190
RODENT ULCER
—rodent ulcer, surgical treatment, 184
ROENTGENOGRAPHY
—diagnostic aid of the x-rays in appendicitis, 128
—liver and spleen visualization by a simple roentgen contrast method, 240
—roentgen diagnosis of intra-abdominal hernia, 214
SARCOIDOSIS
—sarcoidosis, 96
SARCOMAS
—soft tissue tumours, their natural history and treatment, 182
SCIATICA
—tumors of the spinal cord without neurologic manifestations producing low back and sciatic pain, 98
SEMINAL VESICLES
—cysts of the seminal vesicle, 144
—seminal vesiculitis, 143
SHOULDER
—painful shoulder syndrome, 317

SKIN
—disinfection of the skin, 263*
cancer:
—replacement of a skin graft by a basal cell carcinoma, 103
tumors:
—fibrosarcoma developing in heavily irradiated skin, 157
SKIN GRAFTS
—replacement of skin graft by a basal cell carcinoma, 103
SODIUM CITRATE
—citrate tolerance, 95
SPERMATIC CORD
—torsion of the spermatic cord, 246
SPINAL CORD
tumors:
—tumors of the spinal cord without neurologic manifestations producing low back and sciatic pain, 98
SPINE—*See also Vertebral Disks.*
cervical:
—method of treating fracture-dislocations of the cervical spine, employing suboccipital skeletal traction, 56
injuries:
—cervical spine injuries, 282
SPLEEN
—liver and spleen visualization by a simple roentgen contrast method, 240
SPLENECTOMY
—thrombocytopenic purpura, review of fifty-three cases, 134
SPLENIC ARTERY
—aneurysm of the splenic artery, 136
STEATORRHEA
—pancreatogenous steatorrhoea, 133
STOMACH
secretions:
—influence of frontal topectomy upon gastric secretion (review of data on twenty-two cases and fourteen controls), 122
surgery—See also Gastrectomy.
—anesthesia for gastroesophageal surgery, 230
—review of surgery of the stomach and duodenum for 1950, 227
—transthoracic approach for high gastric lesions, 218
ulcer—See also Gastroduodenal Ulcer.
—certain aspects of benign and malignant gastric ulcer, 36
—large gastric ulcer, 36
STREPTOMYCIN
—early major surgery after streptomycin in the treatment of acute pulmonary tuberculosis, 191
—prophylactic streptomycin in thoracoplasty operations, 194
—streptomycin and artificial pneumoperitoneum in the treatment of pulmonary tuberculosis, 192
SUBPHRENIC ABSCESS
—subphrenic abscess, 32
SULFONAMIDES
—role of the sulfonamides and the antibiotics in the treatment of perforated peptic ulcers, 229
SURGERY
history:
—fifty-year review of surgery, 1*
SURITAL SODIUM
—clinical impressions of a new intravenous barbiturate, surital sodium, a preliminary report, 176
SUTURE
delayed:
—delayed suture in the management of wounds, analysis of 721 traumatic wounds illustrating the influence of time interval in wound repair, 59
SYMPATHECTOMY
thoracolumbar—See Hypertension, surgical treatment.
SYMPATHETIC NERVOUS SYSTEM
—observations on twenty years of experience in surgery of the sympathetic nervous system, 282
SYNCURINE
—syncurine (decamethonium-bromide), its use with pentothal-sodium and nitrous oxide-oxygen anesthesia in abdominal surgery, 278
TESTES
—torsion of the testis and its appendages, 145
injuries:
—dislocation of the testis, 139
TESTOSTERONE
—treatment of far advanced carcinoma of the breast, present status of testosterone therapy, 29
THORACOPLASTY
—prophylactic streptomycin in thoracoplasty operations, 194
THORAX
abnormalities:
—congenital chondrosternal depression (funnel chest), its treatment by phrenosternolysis and chondrosternoplasty, 200, 289
injuries:
—traumatic injuries of the thorax, 199
surgery:
—adaptation of an orthopaedic table for use in chest surgery, 203
—resume of anesthetic experience in 1037 intrathoracic operations, 10
—surgical lesions of the chest in children, 193
tumors:
—intrathoracic lipoma, 112
THORIUM X
—treatment of haemangiomatous naevi with thorium X, 183
THROMBOPHLEBITIS
pelvic:
—partial excision of the inferior vena cava in suppurative pelvic thrombophlebitis, 150

THROMBOSIS
—antenatal thrombosis, 311
—prevention of thromboses during the "post-operative disease," 151
—prophylaxis of thrombosis with Tromexan in closed leg fractures, 57
THYROID
cancer:
—problem of thyroid carcinoma, 286
—treatment of papillary carcinoma of the thyroid with lateral cervical metastases, 103
TOPECTOMY
—influence of frontal topectomy upon gastric secretion (review of data on twenty-two cases and fourteen controls), 122
TRACHEA
injuries:
—traumatic rupture of the lower trachea with stenosis, 203
TROMEXAN
—prophylaxis of thrombosis with Tromexan in closed leg fractures, 57
TUBERCULOSIS
pulmonary:
—benefits of surgery in pulmonary tuberculosis, 195
—bronchography in pulmonary tuberculosis, 112
—early major surgery after streptomycin in the treatment of acute pulmonary tuberculosis, 191
—experiences with lung resection in pulmonary tuberculosis, 205
—lobectomy and pneumonectomy in pulmonary tuberculosis, 21
—streptomycin and artificial pneumoperitoneum in the treatment of pulmonary tuberculosis, 192
TUMORS
—analysis of all tumors at Children's Hospital over a ten-year period, 184
—soft tissue tumours, their natural history and treatment, 182
URETER
abnormalities:
—blind ending branch of bifid ureter, 138
cancer:
—metastatic carcinoma of the ureter, 249
surgery:
—Boari's operation, reimplantation of the ureter in the bladder, utilizing a bladder flap, 243
—review of 100 cases of transplantation of the ureters in the treatment of obstetrical vesicovaginal fistulae, 309
URETHRA
—duplication of the urethra, report of two cases and summary of the literature, 48
female:
—female urethra and chronic urethritis, 244
male:
—carcinoma of the male urethra, 305
—carcinoma of the male urethra, report of a case, 143
URETO-INTESTINAL ANASTOMOSIS
—ureteral implantation, experiments on the surgical principles involved in an open submucosal method of ureterointestinal anastomosis, 48
URINARY INCONTINENCE
—physiologic therapy for urinary stress incontinence, 307
—round ligament sling operation for recurrent stress incontinence, 306
—transplantation of psoas muscle in correction of urinary incontinence, 142
UROLOGY
—preliminary report on abdominal aortography in urology, 51
UTERUS
cancer:
—carcinoma of the endometrium and the fallopian tube, 148
—primary carcinoma of the breast and uterus, 53
cervix:
—cancer of the cervix, an evaluation in 1,000 cases with the Papanicolaou smear technic for the detection of carcinoma of the cervix, 247
—factors influencing prognosis in the treatment of carcinoma of the cervix uteri, 246
rupture:
—14-year survey of the parturient ruptured uterus at the Harlem Hospital, 247
VAGINAL SMEAR
—cancer of the cervix, an evaluation of the results in 1,000 cases with the Papanicolaou smear technic for the detection of carcinoma of the cervix, 247
VAGOTOMY
—effects of vagotomy and phrenicotomy on the cardia, 292
—vagotomy and duodenal ulcer, 35
—vagotomy for idiopathic ulcerative colitis and regional enteritis, 231
—vagotomy and pyloroplasty, the physiologic treatment for duodenal ulcer, 225
—vagotomy in the treatment of duodenal ulcer, results in 350 consecutive cases, 220
—vagotomy as a treatment for marginal ulcer, 122
VAGUS NERVE
—vagus nerve in cardiac arrest, effect of hypercapnia, hypoxia and asphyxia on reflex inhibition of the heart, 9
VAGUS RESECTION
—combined procedure of partial gastrectomy and infradiaphragmatic vagus resection, 223
VARICOSE VEINS
—changing concepts of therapy for severe varicose veins, 252
—some points in the management of varicose veins, 313

—surgical treatment of varicose veins, 315
—surgical treatment of varicose veins, a survey of the methods of treatment with a description of intraluminary stripping and its results, 250
—treatment of varicose veins of the lower limb with particular reference to the location of the communicating veins, 54

VEINS
—division of the popliteal vein in deep venous insufficiency of the lower extremity, 256

VENA CAVA
inferior:
—partial excision of the inferior vena cava in suppurative pelvic thrombophlebitis, 150

VENOUS PRESSURE
—treatment of post-phlebitic leg and application of venous pressure measurement, 150
—venous pressure of the leg, 255

VERTEBRAL DISKS
—pantopaque myelography in ruptured intervertebral disk, correction with operative findings, 285

VESICOVAGINAL FISTULA
—review of 100 cases of transplantation of the ureters in the treatment of obstetrical vesicovaginal fistulae, 309

VITAMIN C
—studies in vitamin C and protein metabolism in surgical patients on a routine hospital diet, 12

VOMITING
postoperative:
—effect of amosyt on postoperative vomiting, 179

VULVA
surgery:
—extended radical vulvectomy of Stanley Way, 147

WISZNIEWSKI'S METHOD
—Wiszniewski's method of local anesthesia and blockade, 94

WOUNDS
—delayed suture in the management of wounds, analysis of 721 traumatic wounds illustrating the influence of time interval in wound repair, 59
—management of wounds—open and gunshot, 58
abdominal:
—obstetrical approach to abdominal war wounds in late pregnancy, 58

WRIST
fractures:
—excision of the distal fragment of the scaphoid and styloid process of the radius for nonunion of the carpal scaphoid, 262

X-RAYS—*See Roentgenography; Radiation Therapy.*

CUMULATIVE AUTHOR INDEX
